REPORT

Motivation

Motivation: Provide an overview of the project goals and motivation.

Related Work

Related work: Anything that inspired you, such as a paper, a web site, or something we discussed in class.

Research Questions

Initial questions: What questions are you trying to answer? How did these questions evolve over the course of the project? What new questions did you consider in the course of your analysis?

Data

Data: Source, scraping method, cleaning, etc.

Exploratory Data Analysis

Exploratory analysis: Visualizations, summaries, and exploratory statistical analyses. Justify the steps you took, and show any major changes to your ideas.

Statistical Analysis

Additional analysis: If you undertake formal statistical analyses, describe these in detail

Discussion

Discussion: What were your findings? Are they what you expect? What insights into the data can you make?
